

KALYANI BACHINA

(475)-261-7807 | kalyanibachina2005@gmail.com | [LinkedIn](#)

Summary:

Results-driven software engineer with over 3 years of experience in quality assurance, and automation testing across all stages of the software development life cycle (SDLC). Proficient in Java, Python, TypeScript, JavaScript. Expertise in leveraging Selenium, Katalon and Junit for automated testing to ensure seamless functionality and high system reliability. Strong background in Agile methodologies, collaborating with cross-functional teams to deliver high-quality, scalable software solutions efficiently. Proven ability to enhance product performance and ensure robust system reliability through continuous testing and improvement.

Education:

Sacred Heart University, Jack Welch College of Business & Technology	Jan 2023 - Mar 2024
Masters of Science, Computer Science and Information Technology-CS Track	Fairfield, CT
GPA:3.80/4	
GITAM School of Technology	Jun 2017 - July 2021
Bachelor of Engineering, Computer Science Engineering	Hyderabad, India
GPA:8.23/10	

Technical Skills:

Languages: Java, Python, JavaScript, C, C++.
Web Technologies: HTML, CSS, JavaScript, ReactJS.
Databases: SQL, MySQL, PostgreSQL, MongoDB.
Developer Tools: VS code, Postman, Eclipse, Git, GitHub.
SDLC Methodologies: Agile, Scrum, Waterfall.
Operating Systems: Windows, MacOS, Linux.
Frameworks: Katalon, Selenium with TestNG Framework, Junit, Security Testing Tools (Burp Scans, Black Duck Scans).

Experience:

Accuvia Software Group	Dec 2024 – Present
Quality Assurance Automation Engineer	Danbury, CT
- Developed and maintained automated test scripts using Katalon Studio to validate core retail software modules, enhancing overall test coverage and reducing manual testing effort. - Conducted comprehensive functional, regression, and integration testing for retail solutions including VIA store POS systems, and VIA central office platforms, ensuring high performance and reliability. - Designed test cases based on business and system requirements, executed test suites for end-to-end validation, and documented results using JIRA for effective defect tracking. - Collaborated closely with development and product teams to identify, report, and resolve critical bugs, significantly improving software quality and release cycles. - Used SQL queries for backend data validation and Swagger for API testing to ensure accurate data flow and service integrity across components. - Improved test efficiency and reduced regression cycle time by implementing reusable automation components and maintaining robust test suites in Katalon.	
OpenText Pvt. Ltd	Aug 2021 – Dec 2022
Quality Assurance Engineer	Hyderabad, India
- Conducted comprehensive functional, integration, and regression testing for the Content Hub for publishers (CHP) platform using tools like Selenium and JUnit, ensuring its seamless operation and high availability for users. - Designed and executed test cases based on system requirements and functional specifications, leveraging TestNG and JIRA to track and manage testing progress. - Collaborated closely with the development team to identify, document, and resolve critical bugs in a timely manner, improving system reliability and user experience. - Used SQL for database validation and Postman for API testing, ensuring end-to-end data accuracy and functionality. - Refined security by 50% through utilization of Blackduck, and Burp. - Implemented automated testing strategies with Selenium WebDriver and Cucumber to enhance the efficiency and effectiveness of regression testing.	
OpenText Pvt.Ltd	Jun 2021-Aug 2021
Software Engineering Intern	Bangalore, India
- Conducted end-to-end testing on Xcelerated Composite Platform (XCP), identifying critical issues and collaborating with developers to ensure software quality. - Developed and executed automated test scripts, enhancing QA efficiency and platform reliability. - Gained hands-on experience with QA tools, test automation, and CI/CD pipelines to expedite the release process.	

Academic Contributions:

- Served as a **Teaching Assistant** at Sacred Heart University (**Oct 2023 – Mar 2024**), conducting **Python and database management** tutorials to enhance students' coding and database optimization skills.
- Provided academic support, evaluated performance, and offered constructive feedback on assignments.
